OIC - Head, Disclosure Department

Gentlemen:

We reply to your request for clarifications on the news article entitled "DMCI allots P18.3 B for Semirara" posted in philstar.com on December 5, 2016. The article reported in part that:

"MANILA, Philippines – Consunji-led DMCI Holdings Inc. is eyeing to infuse P18.3 billion worth of investments to put up a cement plant in Semirara Island in Antique, and other relevant facilities as it banks on the expected boost of the infrastructure industry in the Philippines.

Victor Limlingan, managing director of DMCI Holdings, revealed the company's plan to construct a cement plant with a capacity of 1.7 million metric tons (MT) per year, near the mining site of its subsidiary, Semirara Mining Corp.

The investment will also include two thermal power plants near the cement plant, each with 15-megawatt capacity, and grinding facilities in Calaca, Batangas and Iloilo and Zamboanga, each with a capacity of 400,000 MT.

. . . .

The company official said DMCI is also eyeing Calaca, Batangas as one of the sites for its grinding facilities as it would enable the company to serve the market in Metro Manila.

Limlingan said DMCI has already started discussions with Danish engineering firm, FLSmidth & Co. A/S for the construction of the plant. The company is targeting to start the operations of its grinding plants in two years and its key cement plant, in three years.

. . . ."

We confirm that DMCI Holdings, Inc. (the "Company") is considering cement manufacturing as a possible new business. The specific details are in the exploratory phase as the Company is still completing its study on the matter. The Company will disclose additional details regarding this matter once they are finalized.

Thank you.
