This is to inform the investing public of the following press release:

DMCI Holdings Q2 earnings jump 61% to P6.5B on record nickel and power performances, cement recovery; H1 earnings up 26% to P11.4B

Diversified engineering conglomerate DMCI Holdings, Inc. (PSE: DMC) reported consolidated net income of P6.5 billion in the second quarter of 2026, up 61% from P4.0 billion in the same period last year, supported by improved results across all subsidiaries.

Higher earnings, driven by integrated energy, nickel mining, real estate, off-grid power, construction and cement businesses, more than offset the lower contribution from Maynilad.

For the first half of 2026, consolidated net income grew by 26% to P11.4 billion, from P9.0 billion in the previous year, driven largely by record contributions from nickel mining and significantly narrower losses from the cement business.

Q2 Earnings Contribution Breakdown

Semirara Mining and Power Corporation (SMPC) delivered P2.7 billion in second-quarter earnings, up 17% from P2.3 billion, as record power performance more than offset weaker coal results. At the SMPC level, power accounted for 96% of earnings, while coal comprised the remaining 4%.

DMCI Mining generated a record P1.3 billion, nearly four times the P344 million recorded last year, driven by record shipment volumes following the full-quarter contribution of the Long Point mine. The start of Long Point operations increased the company's active mines from two to three.

DMCI Homes booked P1.0 billion in net income, up 49% from P705 million, supported by higher residential revenues, lower cancellation reversals and improved operating margins.

Associate Maynilad's attributable income amounted to P810 million, down 17% from P974 million, mainly due to the reduction in DMCI Holdings' effective ownership following the water company's initial public offering.

Meanwhile, DMCI Power posted P406 million, up 9% from P374 million, driven by record quarterly energy sales following capacity additions in Masbate and Antique.

D.M. Consunji, Inc. recorded P195 million in contribution, compared with P18 million last year, supported by improved project margins.

Concreat moved close to breakeven, posting an attributable net loss contribution of just P4 million, a 99% improvement from the P682 million loss recorded last year. The turnaround reflected higher cement sales volumes and selling prices, along with continued operational improvements.

About DMCI Holdings

DMCI Holdings (PSE ticker: DMC) is the only publicly listed Philippine conglomerate with construction and engineering as its core competency.

Since its initial public offering in 1995, the company has strategically expanded into real estate, mining, power, water distribution, and cement. Its subsidiaries and associates are key players in industries vital to national development. With a focus on nation building, DMCI Holdings invests exclusively in the Philippines, with most of its operations located outside Metro Manila.
